

Spectra and Perpetual Storage Inc. provide secure offsite vault storage for protection from disaster

Perpetual Storage, Inc (PSI)

Perpetual Storage, Inc. (PSI) is a maximum security digital records, microform, data transport and storage vault located in a unique solid granite mountain near Salt Lake City, Utah. Since 1968 PSI has provided secure vital records storage in a paper-free environment, making it one of the world's most established, cutting-edge and safest offsite storage facilities.

Redundant, offsite backup is key for a successful disaster recovery plan and archival retention. Perpetual Storage can help protect your organization if disaster were to strike.

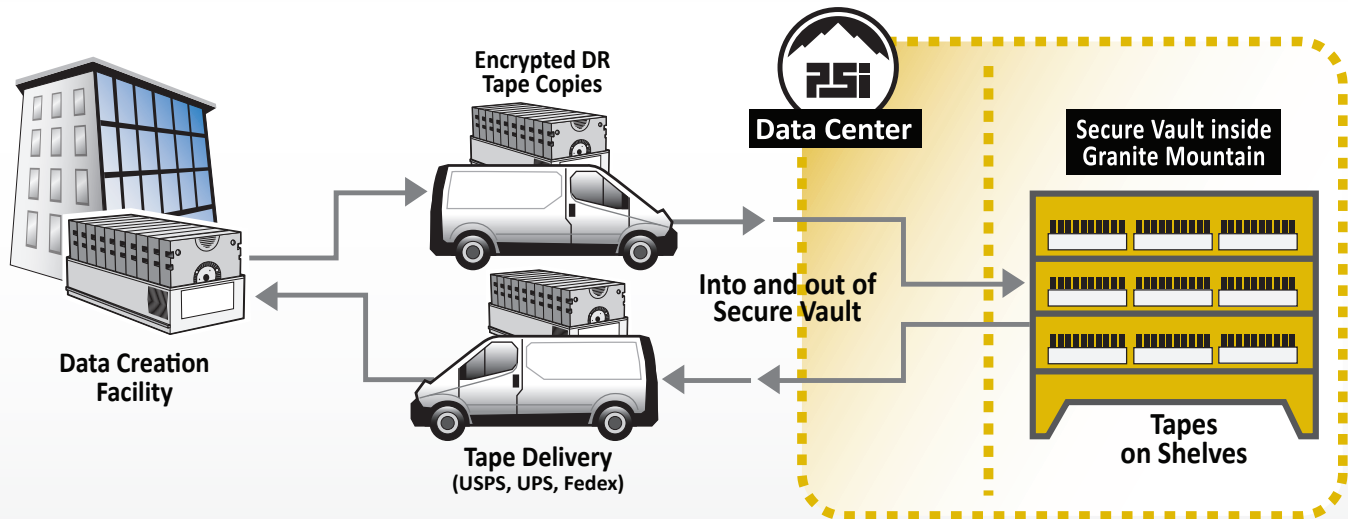

- Granite mountain
- Natural disaster proof
- Non-flammable vault
- 24x7x365 Availability
- Maximum security
- Controlled environment

Spectra Logic® Data Storage Solutions

Spectra Logic data storage solutions solve the problem of digital preservation for business and technology professionals dealing with exponential data growth. Along with PSI nearline secure vault, Spectra enables a protected storage solution that will allow organizations to securely store data for as long as they need. Spectra's data storage solutions provide the ultimate storage platform for backup and recovery, archive, and disaster recovery – ensuring business continuity.

Even though tape storage has long been considered the leading storage medium for long-term storage, it can be difficult to write data to tape. Spectra tape libraries coupled with integrations to industry-leading Independent Software Vendors (ISVs), getting data to tape has never been easier.

PSI Data Vault Service

Spectra's PSI DataVault service is an offsite tape vaulting service which allows customers to ship and then store their tape media inside of a secure mountain vault. This offsite tape vaulting service is an excellent data protection method for organizations that require protected storage for disaster recovery or have a need to implement a long-term storage strategy. Excavated into a solid granite mountain in Salt Lake City's Little Cottonwood Canyon and open for business for 50+ years, the Perpetual Storage vault is one of the world's oldest and safest offsite storage facilities. The facility is protected 24 hours a day, and customers who store their media at PSI will have access to PSI staff 24x7x365. The PSI DataVault preserves an organization's investments in tape media by storing cartridges in a temperature and humidity controlled environment, ensuring the long-term quality of each tape.
