### DDN® Solutions

DataDirect Networks (DDN) is the world's leading big data storage supplier to data-intensive, global organizations. For more than 15 years, DDN has designed, developed, deployed and optimized systems, software and solutions that enable enterprises, service providers, universities and government agencies to generate more value and to accelerate time to insight from their data and information, on premise and in the cloud. Organizations leverage the power of DDN technology and the deep technical expertise of its team to capture, store, process, analyze, collaborate and distribute data, information and content at largest scale in the most efficient, reliable and cost effective manner. DDN customers include many of the world's leading financial services firms and banks, healthcare and life science organizations, manufacturing and energy companies, government and research facilities, and web and cloud service providers.

Together, DDN and Spectra deliver the highest performing, most cost effective and innovative end-to-end solutions on the market today. With the ability to send data directly to deep storage and retrieve it through a simple interface to a global namespace, the complexity challenge is completely removed.

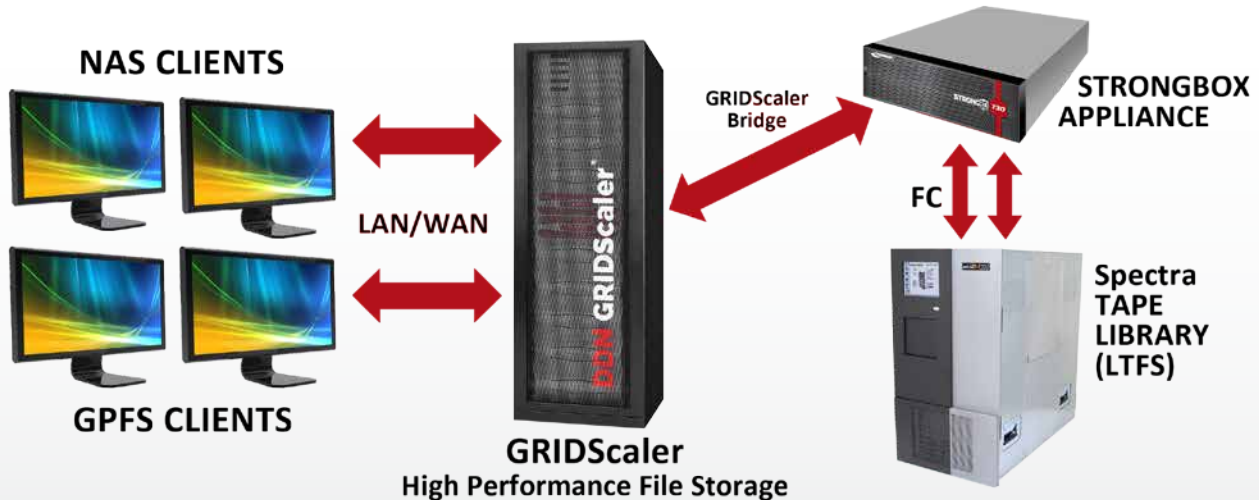

### Spectra Logic® Deep Storage Solutions

Spectra Logic develops deep storage solutions that solve the problem of digital preservation for business and technology professionals dealing with exponential data growth. As part of the DDN solution, Spectra Enterprise libraries seamlessly scale to the largest data storage system on the planet, provide the lowest total cost of ownership, and offer the reliability and service that keep our customers loyal.

Dedicated solely to storage innovation for more than 35 years, Spectra Logic's uncompromising product and customer focus is proven by the largest information users in multiple vertical markets globally. Spectra enables affordable, multi-decade data storage and access by creating new methods of managing information in all forms of deep storage—including archive, backup, cold storage, cloud and private cloud.

#### Seamless Expansion Without Limitations

- Expand from 50 to over 400,000 LTO slots or 300,000 TS1150 technology slots
- Easily grow to 7.6 EB of compressed storage
- Occupies up to 71% less floor space than competing libraries
- Remote management through a secure, web interface

“ When DDN customers ask about tape library storage, it’s easy to talk about Spectra Logic since they are the most innovative organization of their kind. The combined solution of DDN high-performance storage with Spectra archive solutions delivers the most innovative and end-to-end solutions for high-performance, high-density storage on the market. ”

*Molly Rector, CMO, EVP Product Management & Worldwide Marketing*
